DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

2. The disclosure is objected to because of the following informalities: Appropriate headings should be used throughout the instant specification.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 8, "the cycle liquors" does not have clear and proper antecedent basis in the claims.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 1732

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

6. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Connor et al (U.S. Patent 5,891,370).

Connor et al (see the entire document, in particular, col. 3, lines 52 and 53; col. 5, lines 1-46) teach a process of making cellulose articles as set forth in the instant claim, including the step of treating the liquor of the precipitation bath and the washing liquor of the washing stages with UV radiation (liquor from the precipitation bath 3 and washing liquor from washing stage 4a flow to storage tank 5, then through filter 6 and treated with UV radiation prior to entering ion exchanger 7, for the purpose of decomposing an oxidizer such as hydrogen peroxide).

Art Unit: 1732

Allowable Subject Matter

7. Claims 9-15 are allowable over the prior art references presently of record.

8. Claims 2-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. Claim 8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

10. The following is a statement of reasons for the indication of allowable subject matter: None of the prior art references presently of record, alone or in combination, disclose, suggest or teach an apparatus for reducing unwanted microorganisms in liquors containing amine oxide including a precipitation bath and at least one washing stage having a UV radiation source as set forth in independent claim 9. None of the prior art references, alone or in combination, disclose, suggest or teach a process for reducing unwanted microorganisms in washing liquors containing amine oxide including the step of irradiating washing liquor containing N-methylmorpholine N-oxide in at least one washing stage with UV radiation having a wavelength in the range of from 200 to 280 nm as set forth in independent claim 15.
